

Alan Munford and Jared Warren
School Principals

July 9, 2021

Dear School Community:

We hope you are enjoying your summer and spending time with friends and family. We have an exciting opportunity that we would like to share with you. Through a partnership with Hamilton Continuing Care Center and Medical Home Pharmacy, we are pleased to offer you the opportunity to participate in a mobile vaccination clinic. It is our hope that our students and school family who have not yet had the opportunity to become vaccinated will take advantage of this option. We are thrilled to offer this additional vaccination site, adding to the ones that are already in existence. This will provide for an additional opportunity for increasing your access to the vaccine. Now is the best time to get vaccinated to help everyone prepare for a return to full-time instruction in September! Please see the information below for the location of the site and additional details. We are genuinely looking forward to seeing you in months to come and wish everyone a safe and productive summer!

A graphic with a background of overlapping triangles in shades of green, yellow, and blue. At the top center is the Mercer County Technical Schools logo. Below it, the title "Student and Family Mobile Vaccination Clinic" is written in bold green text. Underneath, a blue text block states: "Mercer County Technical Schools will be partnering with Medical Home Pharmacy and Hamilton Continuing Care Center to receive the Pfizer vaccine." Below this, two sections provide details: "Where:" followed by the address "Hamilton Continuing Care Center, Located out back in the gazebo area, 1059 Edinburg Rd, Hamilton Square, NJ 08690" and "When:" followed by "First vaccine on Wed, July 14th from 3 to 5pm" and "Second vaccine on Wed, August 4th from 3 to 5pm". A bulleted list of five items follows, detailing eligibility and requirements. At the bottom, a blue link is provided: "https://bit.ly/summervaccinemcts21".

Student and Family Mobile Vaccination Clinic

Mercer County Technical Schools will be partnering with Medical Home Pharmacy and Hamilton Continuing Care Center to receive the Pfizer vaccine.
